

Let's Learn About Recycling! Library Program

Enriching & Empowering

Reduce, Reuse, Recycle is a FREE 30-minute interactive presentation offered year round by CVWMA staff on curbside recycling.

Topics Include:

- What can and cannot be recycled
- What happens to items collected for recycling
- What products can recyclables be made into
- Why it is important to **reduce, reuse & recycle**

CVWMA's library program teaches children about recycling and the importance of caring for our environment. Actual recyclable items are brought along and shared for discussion, along with interesting products that have been produced from recycled items (such as soft polar fleece gloves made from plastic bottles!). A 6-minute DVD video shows children what happens to the materials that are picked up for recycling.

Can be customized for any ages between Pre-K to Grade 5.
