

Name: _____

Recycling Paper

1. Calculate the total amount of paper waste made in the United States each year.
2. Determine the percentage of each type of paper. (*Hint: For percentages, divide the amount of each type of paper by the total amount of all paper. Round answers to the nearest tenth.*)
3. Match the percentage to the pie chart and label each paper type with the percentage.
4. Answer questions.

Type of Paper	Amount of Waste (Millions of Tons)	% of Total Paper Waste
Boxes/Packaging	39.0	_____
