Established in 1970, Earth Day is a day devoted to raising awareness about the Earth and the issues that affect it. Earth Day is special because it is the only event that is celebrated all around the world on the same day without consideration of the background, faith, or nationality of those celebrating.

The City of Petersburg will celebrate Earth Day by planting a commemorative tree before our first annual golf tournament. All proceeds from our event will benefit the children of Petersburg by providing them opportunities to spend time outdoors and learn about ways to protect our environment and enjoy activities in nature.
