Regional Contracts for Disaster Recovery

What they are and why they are important in planning

Kim Hynes
Executive Director
khynes@cvwma.com
804-612-0552

Why Are Pre-positioning Contracts Important?

- Allows for Competitive Bidding and vetting process; reasonable market pricing
- Ensures compliance with Federal Procurement Standards
- Reduces likelihood of disallowance of reimbursement of FEMA Public Assistance Disaster Grants
- Defined terms/scope of work and pricing w/ flexibility to negotiate detailed terms when event occurs
- Control over activation and mobilization
- Employees back to regular work quicker
- Overall preparedness

thompson
CONSULTING SERVICES

Scope: Debris Management & Monitoring Contracts

- Activation Procedures (Notice to Proceed) only if desired – Do Not Need a FEMA declaration to activate
- Requires mobilization and be fully operational for clearing debris and hauling to/from DMS; reclamation of DMS
- Technical Assistance; guidance and documentation in conformity with established FEMA and VDEM guidelines
- Overall compliance with 44 C.F.R.206
- Training
- Assistance in developing local debris management plans
- Pricing, Bonds and insurance and other general terms

Alternative Contracts – Smaller Emergencies
